Thank you again for the information in response to previous Right to Know requests. However, I noticed that any identifying information about interim superintendent candidates was redacted. I would like to ask again under RSA 91-A for all the information about these candidates that you can provide. I refer you to NH Supreme Court case Lambert v. Belknap County Convention (attached) that argues there is a public interest in disclosure of such identifying information as the list of names and cover letters for candidates. I think the office of Superintendent is clearly of equal or greater interest to a community as sheriff as described in Lambert.

Thank you again for your assistance.
-David K. Taylor
