I propose that we offer [REDACTED] the interim superintendent position with our strong support that [REDACTED] apply for the permanent position in the fall.

[REDACTED] will know within days/hours whether [REDACTED] gets the position in [REDACTED]. It is my belief that a permanent position here would be more preferable to [REDACTED]. While it would be hard to offer [REDACTED] a permanent position because it would circumvent a public search, we are all aware of the huge impediments surrounding finding good superintendents in New England. Chances are, [REDACTED] would be our best candidate given a thorough search process.

If we are interested in this we should move quickly.
